Malkah;

Thank you for your email. If you support me, you know that as a social worker and elected official that I am committed to human rights issues. I will admit, however, that I have concerns about this order. Although I do not condone much of what Israel's government does, I'm not sure about tying Cambridge to the BDS movement. I have had several meetings with MA Against HP and have offered a broader resolution that looks at the city's relationships, both politically and financially with countries that violate human rights. They are not interested in a broader order. At this time, I don't know of any Councillor who is going to sponsor the order for the 23rd.

Subject: a question

Dear Marc,

I support you because I believe you have the integrity to make human rights a priority — even when there is pressure from the right wing to be silent. That is why I am writing to you now, regarding your vote and support for the Massachusetts Against Hewlett-Packard Campaign in Cambridge being brought up for a resolution to a hearing and vote in the Cambridge City Council on Monday, April 23.

Those of us who support human rights must take whatever peaceful action possible to stop supporting companies, like Hewlett-Packard, until they terminate their support for violence against and denial of rights to Palestinians, immigrants, and people targeted by the US prison system.

I will be watching the votes on this and I believe we can count on you. Can we?

Warm regards, Malkah B Feldman, Cambridge
